

OMR Manager

Automate the design and processing of questionnaires for surveys, assessments, data collection etc.

Simple entry of questions

- Spreadsheet-like entry interface.
- Loading of questionnaires designed in ETHNOS, without altering the defined parameters i.e. scores, connections, calculated variables etc.
- Defining of different sections of the document with specific characteristics i.e. columns, numbering etc.
- Simple choice of question type for example, single or multiple response, numerical, date or time related etc.
- Easy linking of page layout specifications to each question.
- Re-grouping of questions into tables with scales etc and labelled with specific titles.
- Linking of Bitmap images and texts to surveys

Automatic layout of the questionnaire

- Print preview of the page.
- Automatic arrangement of the elements defined by the user.
- Context menus to intervene in each element for example, the question, answer etc, in order to move, re-define dimensions, modify fonts or alignments.
- Drawing of objects directly onto the page for example, lines, arrows, rectangles etc, or inserting of external graphic files.
- Managing of multi-page and double-sided documents.
- Automatic numbering of printed questionnaires.
- Printing of questionnaires on all types of printer using calibration.

Handy optical reading

- Automatic management of pilot file for optical reader, following printing of the questionnaire.
- Managing of the main types of manual or automatic optical reader. The speed of reading can range from 1,000 to 7,000 questionnaires per hour!
- With the SCAN version, readings by scanner at a lower rate per hour but at a much lower cost.
- Displaying in real time of data read.
- Coherence control checks in real time with option of manual correction.
- With PANEL Manager, management of linking codes in the questionnaire with an external database.
- Storing of data read in the ETHNOS format allowing immediate access to results and analyses.
- Transfer of data into other formats i.e. ASCII fixed or unlimited.
